COMPLAINT REGARDING THE VIOLATION OF FUNDAMENTAL RIGHTS AND THE UNJUSTIFIED BLOCKING OF SURVIVAL
FUNDS **Ref:** Audit ID A©TOR-V4.4-2026-05-24 | An OHCHR tw571ryb

I hereby address a formal complaint against BC FinComBank S.A. and BC Moldindconbank S.A., requesting the urgent intervention of the National Bank of Moldova (NBM) as regulatory and supervisory authority, in order to stop an act of administrative abuse, systemic discrimination and violation of the right to life.

I. FACTS:

1. My legitimate funds in the amount of **25,210,256.15 MDL** are blocked in the FinComBank system, and the current IBAN account MD33ML000002259A65114581 opened at Moldindconbank is subject to restrictions/prohibitions that totally deprive me of access to the financial resources necessary for survival.

2. The reason given for those blockages is an alleged 'inconsistency of identity' between the onomastic forms and . This linguistic collision was definitively resolved by **Scientific Opinion No. 177 of the Institute of Romanian Philology "Bogdan Petriceicu-Hasdeu",** which confirms the identical character of these names.MACERETMACHERET

3. The undersigned is a person with severe disability (Permanent First Degree, Certificate C013564402308), a victim of torture, whose state of health critically depends on access to these funds for palliative treatment and medical supplies.

II. LEGAL BASIS:

- **Law on the activity of banks:** Refusal to process legitimate transactions on the basis of a proven technical error constitutes a breach of due diligence obligations.

- **Constitution of the Republic of Moldova:** Violation of Art. 46 (Right to private property) and Art. 47 (Right to social assistance and protection).
- **Rules of Procedure:** The blocking of funds necessary for medical assistance for a victim of torture can be qualified as inhuman and degrading treatment continued in administrative form.
- **Erga Omnes Effect:** The situation is monitored internationally under the reference **UN OHCHR tw571ryb**.

III. REQUESTS:

1. Ordering the immediate release of all financial assets associated with IDNP 2000001159655 in both mentioned banks.
2. Issuing an instruction to commercial banks for the recognition of the anthroponymic equivalence proven by Philological Opinion No. 177, in order to prevent future collisions.
3. Investigating how the compliance systems of these banks allow the blocking of a vulnerable person's survival funds based on minor linguistic discrepancies, ignoring legal evidence.

In the absence of an immediate solution, this case will be reported as a refusal to remedy under the UN procedures already initiated.
